Generic article when cabinets/areas have gone live

Superfast broadband is here!

Great news! Superfast broadband is now available to homes and businesses in this area. Check with your Internet Service Provider (ISP) or use a broadband comparison site to see if you can get it.

Connecting Cambridgeshire is working to get as many people as possible connected to the new fibre broadband network, although some premises may be harder to reach and will have to wait a little longer for better broadband.

A coverage map can be seen on the Connecting Cambridgeshire website 'my area' pages at www.connectingcambridgeshire.co.uk together with advice on the benefits of faster Internet access and how to get it.

Find out how you can get superfast

Connecting Cambridgeshire is improving the broadband infrastructure to bring better connections – but it's up to you to find the best broadband package for your needs.

In three quick steps:

1. Find out if your area is connected – visit the 'my area ' pages on the website

2. Check your current broadband contract – see if you can switch or upgrade to a fibre package

3. Shop around for the best deal – compare packages and offers to find what's best for you

Need help using the Internet? Your local library can link you up with someone to show you how, or go to the learndirect.co.uk website.
