

Emma's Hero Arm Fund

Emma was born with Moebius Syndrome part of which means she has no lower left arm & just two fingers on her right hand. Due to nerve damage in her hand last year she lost her independence for 6mths, had carers come in which affected her mental health. Her hand has improved but could worsen again, so she needs a bionic arm to keep her independence. Please donate by going to www.gofundme.com/6bc76581 or scan QR code
