Memorial tree made from reclaimed copper piping by artist Fiona Campbell for a hospice.

She is busy with other commissions right now, but could make a similar tree for us, around 2m in height, within the time frame (end 2022) for around £2000.

Tags are not provided, but can be easily purchased and engraved from places such as Timpsons. (The hospice charges £100 for an engraved copper tag that will hang on tree for 1 year and has a little ceremony every 2 months when there are new additions.)
